DETAILED ACTION

Election/Restriction

The requirement for restriction made in the Office action mailed November 29, 2005 has been withdrawn in view of applicant's amendment in response to the restriction requirement that removed claim 9 from being independent and by incorporating therein the subject matter of claim 1.

Claims 20-23 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim.

Election was made **without** traverse in the reply filed on November 22, 2004.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 42, 43 and 46 are rejected under 35 U.S.C. §112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 42 includes the limitation "said wire seating member is comprised of a longitudinally extending shaft with a bore extending the longitudinal length of said shaft wherein said bore has an entrance opening and an exit opening". However, this is a double inclusion of the subject matter of claim 1 from which this claim depends and since there is no duplicated structure, it is unclear what is meant by repeating the limitation from claim 1. It would appear to be an oversight caused by rewriting claim 9 to depend from claim 1 and it is assumed that this is the case. It appears that claim 42 should be cancelled and claim 43 made dependent on claim 9.

Art Unit: 3677

Similarly, claim 46 refers to the wire seating member defining a through hole. However, this is a double inclusion of the subject matter of claim 1 from which this claim depends because claim 1 already defines a bore and there is no additional through hole in the wire seating member.

Again, it is assumed that this was an oversight caused by rewriting claim 9 to depend from claim 1 and it is suggested that this claim be cancelled.

Allowable Subject Matter

Claims 1-19, 24-41, 44 and 45 are allowed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
